

Editors Attend Finch Luncheon

Editors and publishers of leading south bay newspapers will attend a luncheon for Republican Congressional candidate Robert Finch at the Fish Shanty on August 8. According to Finch's representatives, plans for the coming campaign and election in November will be outlined.

TEAM TECHNIQUE—Martha Jane and Edward T. Rickard, a husband and wife dancing team of the Three Arts Studio, show their technique as they leave Montreal, Canada, on board the Canadian National Steamship's "Canadian Challenger" for a 40-day cruise to the West Indies and British Guiana. Prior to sailing, they completed a special course at New Orleans and attended the Dance Educators of America Normal School and Convention in New York. Now they are off to the sunny south to learn more about the types and techniques of dancing in the Caribbean.

A truth is as comfortable in homely language as in fine speech. — Charles Spurgeon.

Reasons for Chest X-Ray Stated Here

The Los Angeles County Health Department this week outlined excellent reasons why everyone over the age of 15 years should take advantage of the free chest x-rays that will be given in a mobile chest unit on Friday, August 1, at 3:30 p.m., at Crenshaw Blvd. and 174th St.

The department states the following reasons for a chest x-ray: If it shows that you have a healthy chest, that is good news;

If it shows that you have already fought a round with tuberculosis germs and have won, that is good news;

If it shows that you have tuberculosis in the early, symptomless stage, that is good news too because when tuberculosis is found early, the chances for complete recovery are excellent provided treatment is started at once;

If it shows that you need medical care for any other chest condition, you will be advised.

Harbor JC Opens Doors To Visitors

"Any club, organization, or association in the harbor area that would like to visit Harbor Junior College as a group will be given this opportunity during July and August," stated Dean Hatfield, summer school director. "The only requirement will be that the secretary or president of the local group must telephone their request at least two days before the actual visit." One hour tours of the campus will be made under the supervision and guidance of Dean Hatfield and the regular instructors between the hours of 4:00 and 8:00 p.m.

As one of the finest and newest junior colleges in Southern California, this educational institution is worth visiting. The physical facilities now in use include a combination classroom-laboratory, building, two technical buildings, a library, a campus center building, gymnasium and an athletic field. This tax-supported technical institute gives post-high school educational services under the administration of the Los Angeles City School system.

No life can be pure in its purpose, and strong in its strife, and all life not be purer and stronger thereby. — Owen Meredith.
